

Brand Logo

The logo represents our brand identity and should be used consistently across all touchpoints.

Use the primary logo on light backgrounds and alternate versions for dark or monochrome settings. Always maintain clear space and avoid distortion, color changes, or placing it on cluttered backgrounds.

Brand Color Palette

Our brand colors are designed to reflect our identity and ensure visual consistency. Use the primary color palette for all core branding, and secondary colors for accents or highlights.

Always maintain sufficient contrast for readability and accessibility. Avoid altering or tinting the brand colors.

Typography

Our typography ensures a clean, professional, and consistent voice across all content. The primary typeface is used for headings, subheadings, and body text, maintaining hierarchy and readability.

Use designated weights and sizes as specified, and avoid using unapproved fonts or styles.
